## The IAN KEY BAND : Modern Rock Out Of Motor-Town Stuttgart

The IAN KEY BAND offers modern, melodic rock with poetic English lyrics. The songs vary between straight rock, ballad and hymn.

The musicians are spread from a wide area around Stuttgart in the south of Germany. They are on high skills, also playing with musicians around Xavier Naidoo, Peter Maffay, Uwe Ochsenknecht Band, Atrocity and other popular bands.

Base is the innovating drum-bass line. Unique it gets by the self-built acoustic guitar of Ian, which unites an unknown broad range of acoustic and e-guitar sounds in one instrument. In addition, the polyphonic arrangement with up to three voices make the difference and define the IAN KEY brand.

IAN KEY had a lot of club-concerts, was guest on festivals and even in radio shows. The band was support for German Rock Award Winner "Nobody Knows" and also for "Barbed Wired", well known show rock band. Their song "The Story of Rose", was nominated for the national award in the category "Best Music Video".
